

Alora OASIS-E

Comprehensive, mobile-ready software for home health agencies to ensure compliance with OASIS-E documentation, billing, and workflow.

<https://www.alorahealth.com/oasis-e>

Overview

Alora OASIS-E is a core component of the Alora Home Health Software, an all-in-one Electronic Medical Record (EMR) system designed to streamline the delivery and management of home health care, home care, and hospice operations. The software is specifically optimized to facilitate compliance with the new OASIS-E assessment requirements, a critical component for Medicare certification and reimbursement.

Key Features and Capabilities

OASIS-E Documentation & Scrubber: Provides easy-to-use, mobile-ready forms for OASIS-E data collection and includes a scrubber to check for errors and warnings, ensuring compliance and maximizing revenue.

Automatic Plan of Care (POC): Automatically generates the Plan of Care (CMS-485) based on the OASIS assessment data.

All-Payer Billing: Supports billing for all payer types, including Medicare, Medicaid/Waiver, Managed Care, Private Insurance, and Private Pay.

Electronic Visit Verification (EVV): Fully integrated EVV with both GPS and Telephony options to meet state and federal mandates.

Mobile & Offline Charting: Clinicians can access and document patient data, complete assessments, and capture signatures on any device (smartphone, tablet, laptop) and work offline without an internet connection.

Agency Management: Includes robust features for scheduling, payroll, employee HR processing, accounts receivable, referral tracking, and a secured, HIPAA-compliant dashboard.

Target Users and Benefits

The software is ideal for small to medium-sized home health agencies seeking an affordable, user-friendly, and comprehensive solution. Its cloud-based, mobile-first design allows for a paperless

workflow, enabling field staff to be more efficient and client-focused. Alora is known for its strong focus on compliance, helping agencies successfully pass surveys by ACHC, CHAP, and the Joint Commission.

Key Features

- OASIS-E Documentation and Scrubber
- Automatic Plan of Care (CMS-485) Generation
- Electronic Visit Verification (EVV) with GPS/Telephony
- Offline Charting and Documentation
- All-Payer Billing (Medicare, Medicaid, Private)
- LUPA Threshold Tracking and Assessment Analysis
- Scheduling and Agency Management
- Electronic Signature Capture
- Quality Assurance (QA) Center
