Overview

American Medical Compliance (AMC) is a healthcare compliance leader specializing in providing a comprehensive, online Learning Management System (LMS) for government-mandated compliance training and HR solutions. The platform offers an extensive, easily accessible, and mobile-friendly course library with over 250 unique courses that are current with the latest guidance from agencies like the CDC, OSHA, and WHO.

Key Features and Capabilities AMC's LMS is designed to streamline healthcare compliance, making it simple, effective, and affordable for healthcare providers. The core offering includes training and resources for OSHA, HIPAA, Fraud Waste and Abuse (FWA), Sexual Harassment, Infection Control, and general HR management. The system includes an automated reporting system, a course manager to build effective compliance courses, and a 24/7 online employee training platform. Users can access industry-specific policies, exposure control plans for bloodborne pathogens, and biomedical waste plans.

Target Users and Use Cases The software is best suited for a wide range of healthcare organizations, including medical practices, dental offices, hospitals, surgical centers, long-term care facilities, and urgent care centers. It supports organizations from small practices (1-5 employees) up to large enterprises (100+ employees). The primary use case is ensuring staff compliance with state and federal regulations to avoid costly penalties and loss of productivity from audits and inspections. AMC is also an accredited partner with the ADA and ACCME for continued education and certification.

Technical Details The platform is a web-based, cloud-deployed LMS that is mobile-friendly, allowing employees to complete courses at their convenience. It offers integration capabilities to adapt to a user's current LMS or Payroll/HRIS platform for simple onboarding and employee management.

Key Features

- OSHA Compliance Training
- HIPAA Compliance Training
- Infection Control Training
- HR Management Solutions
- Automated Reporting System
- Industry-Specific Content
