ATGenius

A web-based Electronic Medical Record (EMR) system for athletic trainers, providing SOAP notes, concussion management, and treatment sign-in on any device.

https://atgenius.com

Overview

ATGenius is a simple, smart, and secure Electronic Medical Record (EMR) system specifically designed by and for athletic trainers to streamline documentation and improve patient care. The system is entirely web-based and fully functional on any device, including smartphones, tablets, and computers, allowing athletic trainers to document anytime, anywhere—from the office, the field, or while traveling.

Key capabilities include detailed **Guided SOAP** notes with checklists for thorough record-keeping, **Open SOAP** for narrative entries, and **Short Notes** for minor injuries. It provides comprehensive **Concussion Management**, including electronic evaluation, symptom checklists sent via text message to patients' phones, and step-by-step **Return-to-Play (RTP)** protocol documentation. Efficiency features include **QR Code Treatment Sign-in** for athletes, a customizable **Rehab Card** feature with the ability to upload how-to videos/pictures, an **Appointment Calendar**, and an autofill feature for faster documentation. The platform also helps athletic trainers demonstrate their value with detailed **Injury Statistics Reports** and **Treatment Summaries**. The system is designed to be **HIPAA** and **FERPA** compliant, utilizing 256-bit AES SSL encryption and daily server backups.

Key Features

- SOAP Notes (Guided & Open)
- Concussion Evaluation and RTP Protocol
- QR Code Treatment Sign-in
- Customizable Rehab Cards

- Injury Statistics & Coaches Reports

- Equipment Loan Manager

- Patient-Reported Outcome Measures (PROMs)
