---

## Overview

---

Centage (formerly Planning Maestro and Budget Maestro) is a cloud-native Financial Planning and Analysis (FP&A) platform designed to automate and streamline budgeting, forecasting, and reporting processes for small to mid-market organizations. The software replaces manual, error-prone spreadsheet-based planning with a centralized, intelligent solution.

### Key Features and Capabilities:

**Budgeting & Forecasting:** Supports collaborative, top-down and bottom-up budgeting, rolling forecasts, and predictive analytics.

**Scenario Planning:** Enables unlimited “what-if” scenario modeling to assess the financial impact of various business decisions.

**Consolidated Reporting:** Automatically consolidates financial data across multiple departments and entities, providing a single source of truth.

**Automated Financial Statements:** Generates synchronized Profit & Loss, Balance Sheet, and Cash Flow statements automatically, ensuring GAAP/IFRS compliance.

**Workforce Planning:** Includes a dedicated personnel module to model labor costs, payroll, and headcount shifts with precision.

**Integration:** Seamlessly connects with General Ledger (GL), ERP, and HRIS systems for real-time data ingestion and synchronization.

**User Experience:** Features an intuitive, cloud-based interface with role-based security to facilitate collaboration among finance and department leaders.

Centage aims to deliver enterprise-level FP&A sophistication at a price point and complexity level suitable for the mid-market, serving industries including healthcare, nonprofits, and education.

## Key Features

---

- Budgeting and Planning
- Financial Forecasting (Rolling Forecasts)
- Scenario Modeling ('What-if' Analysis)
- Consolidated Reporting
- Workforce Planning
- Real-Time GL/ERP Integration
- Automated Financial Statements
