---

## Overview

---

Claimable is an easy-to-use, cloud-based claims management system designed to simplify and streamline the entire claims process from first notice of loss to final settlement. Founded in 2009, it is trusted by insurers, claims management companies, and non-insurance businesses (like retailers, logistics, and manufacturers) globally to manage claims, legal cases, disputes, and product recalls.

### Key Benefits

Claimable helps teams settle more claims with less resources by reducing administrative overhead and boosting productivity. It provides a full audit trail for compliance and allows for data-driven risk management through comprehensive reporting. The platform is designed to be affordable, flexible, and scalable with predictable per-user pricing and no long-term contracts.

### Main Features & Capabilities

**Customization & Flexibility:** Unlimited Custom Claim Types, Custom Report Builder, Unlimited custom labels to tag and categorise claims, Per-Claim Currency Support (Established plan).

**Workflow & Automation:** Workload management, automatically generated tasks, Claim Checklist, Repeating Tasks, Message Templates, PDF Letter Generation, and a centralized storage for all claim-related emails.

**Data & Reporting:** Claims dashboard for at-a-glance insights, Filters & Reporting, Scheduled Exports/Reports, and unlimited claim activity logs (Established plan).

**Access & Collaboration:** Client and supplier access to update assigned claims, Detailed contact profiles, Claim notes and updates for team collaboration, and Limited Access Users.

**Technical & Security:** API Access, SAML SSO, MFA, IP Address Filtering, and Data Access Control features.
