---

## Overview

---

ClinicSource SLP is a fully integrated, cloud-based Electronic Medical Record (EMR) and practice management system tailored for Speech-Language Pathologists and other therapy practices, including Physical Therapy (PT), Occupational Therapy (OT), Mental Health (MH), and Applied Behavioral Analysis (ABA).

Designed by an ASHA-certified SLP, the software focuses on streamlining administrative tasks to allow therapists to spend more time with patients. Key features include comprehensive therapy documentation with customizable, discipline-specific templates for SOAP notes, evaluations, and care plans. It includes an exclusive Goal Library pre-populated with hundreds of relevant objectives that automatically flow into daily notes.

The practice management component integrates scheduling, billing, and reporting. The scheduler is cloud-based, mobile-friendly, and includes a built-in automatic appointment reminder system (email/text). The billing module is customizable, supports electronic claims submission, processes secondary claims, and is ICD-10 ready. ClinicSource is fully HIPAA compliant and ONC Certified, ensuring data security and regulatory adherence. It is scalable, supporting single therapists, mid-sized clinics, and multi-office networks.
