Compliatric

The leading Healthcare Administration Operating System (HAOS) for comprehensive compliance, automation, and real-time insights in healthcare.

https://compliatric.com

Overview

Compliatric is the Healthcare Administration Operating System (HAOS), a single, fully integrated, cloud-based platform designed to simplify and automate regulatory, compliance, and accreditation program support for healthcare organizations. Primarily targeting Community Health Centers (FQHCs) and other healthcare entities, the platform aims to replace the need for multiple, disparate systems (e.g., for grant, policy, and learning management) by offering over 20 customizable modules in one place.

Built on the secure Force.com platform, Compliatric provides a robust and scalable solution for risk management and operational excellence. Key capabilities focus on ensuring organizations are 'Always Audit-Ready' and mitigating risks before they escalate.

Key Features and Capabilities:

Compliance Management: Addresses General Compliance, HIPAA, HRSA, FTCA, 340B, OSHA, and STARK & ANTI-KICKBACK laws.

Operational Modules: Policy and Forms Library, Learning Management System (LMS), Incident Reporting and 24/7 Hotline, Credentialing & Privileging, Agreement/Vendor Management, and Equipment Tracking.

Risk & Audit: Automated, recurring Exclusion Checking (OIG/GSA), Audit & Monitoring, and real-time Reports & Dashboards powered by Salesforce's reporting engine.

Customization: Highly flexible platform allowing for role-based permissions and departmental tailoring to match the organization's unique structure and needs.

Compliatric's mission is to transform compliance from a burden into a strategic advantage, empowering teams with intuitive tools that reduce stress and maximize efficiency.
