Coronis Health

Global healthcare revenue cycle management (RCM) company offering technology-enabled, data-driven solutions and medical billing services.

https://example.com/1762583716455

Overview

Coronis Health is a leading provider of end-to-end Revenue Cycle Management (RCM) solutions to U.S. healthcare providers, including primary and specialty physician practices, anesthesia groups, laboratories, emergency medical services, behavioral health centers, federally qualified health centers, and hospitals.

The company's unique approach, "The Coronis Way," integrates advanced technology (AI, automation), strategic partnerships (e.g., ImagineSoftware, UiPath, Snowflake), and personalized service to simplify RCM processes and enhance financial performance. Key services include patient access, medical coding, billing and collections, denial management, credentialing & enrollment, and data analytics. The solutions leverage AI and automation to improve workflow efficiency, reduce errors, minimize claim denials, and accelerate payments.

Coronis Health is committed to data security, applying a Zero Trust model, multi-factor authentication, and encryption, and is compliant with HIPAA, SOC 2, and ISO 27001:2022 standards. The company also offers a mobile and web application, "Quality Touch," for MIPS quality measure reporting.
