CrelioHealth

Cloud-based Laboratory Information Management System (LIMS) and healthcare software suite for diagnostic labs, pathology centers, and hospitals.

https://creliohealth.com/

Overview

CrelioHealth is a comprehensive, cloud-based platform offering a suite of solutions for the healthcare diagnostics industry, including a Laboratory Information Management System (LIMS) (CrelioHealth for Diagnostics), a Picture Archiving and Communication System (PACS), Inventory Management (Crelio Inventory), and Patient Engagement tools. The core product, CrelioHealth for Diagnostics, is a full-stack solution that streamlines end-to-end lab workflows, from patient registration and sample tracking to automated reporting and dispatching.

It is designed to manage complex operations for multi-center laboratories, Physician Office Labs (POLs), and hospital-based labs, supporting various testing types like Hematology, Toxicology, and Molecular. Key features include instrument interfacing, AI-powered solutions (such as AI-TRF Scan for accessioning and Smart Report generation), smart billing, multi-location patient search, and dedicated Patient and Provider Portals/Mobile Apps. The platform is built for high performance, ease of use, and quick implementation, and is trusted by over 2,500 labs worldwide.

Key Features

- Laboratory Information Management System (LIMS)
- Picture Archiving and Communication System (PACS)
- Inventory Management
- Multi-Location/Multi-Center Management
- Instrument Interfacing & Lab Automation
- Patient & Provider Portals/Mobile Apps
- AI-Powered Solutions (e.g., AI-TRF Scan)
- Billing & Insurance Management (e.g., Eligibility Verification)
