

HyperStart

AI-powered Contract Lifecycle Management (CLM) software to automate contract creation, negotiation, and tracking across legal, sales, finance, and HR teams.

<https://www.hyperstart.com>

Overview

HyperStart CLM is an end-to-end AI-powered Contract Lifecycle Management partner that empowers teams across legal, sales, finance, and HR from contract creation to completion to tracking. It is engineered to be an extension of your mind with automated workflows, streamlined processes, and powerful AI, built on proprietary AI from HyperVerge.

Key Features and Capabilities

Contract Creation & Drafting: Users can draft contracts quickly using dynamic pre-approved templates, intake forms, and conditional logic, reducing creation time by up to 60%.

AI-Powered Negotiation: The platform optimizes faster reviews with AI-powered redlining, version control, and audit trails, helping to close contracts up to 10x faster. The AI provides a first-cut review highlighting critical items in less than one minute.

Approval Workflows: Customize automated approval workflows using conditional logic in a streamlined, no-code process.

E-Signature: Supports multiple compliant and legally binding e-signature methods, including native options, OTP-based eSign, and integrations with platforms like DocuSign or Adobe Sign.

Centralized Repository: A unified, searchable contract repository is powered by AI-filters for quick retrieval. The system auto-extracts metadata with up to 95% accuracy to track contract obligations and automate renewal reminders.

Target Users and Use Cases

HyperStart CLM is designed to solve contract bottlenecks across Legal, Sales, Finance, HR, and Procurement teams. It is trusted by startups and large enterprises. The software is specifically tailored for industries including **Healthcare** (Payer, Provider, Pharma), Government, Non-profits, Education, Construction, and Real Estate, ensuring compliance and audit-readiness for complex contracts.

Key Features

- AI-Powered Contract Redlining
- Centralized AI Contract Repository
- Automated Renewal Tracking
- Dynamic Contract Templates
- Customizable No-Code Approval Workflows
- AI-Powered Metadata Extraction (95%+ accuracy)
- E-Signature Integration (DocuSign, Adobe Sign)
- Role-Based Access Control
