

ImagineSoftware

AI-driven Revenue Cycle Management (RCM) and medical billing automation platform for healthcare organizations across 47+ specialties.

<https://example.com/1762583716455>

Overview

ImagineSoftware is a leading provider of Revenue Cycle Management (RCM) and medical billing automation software, primarily serving medical billing offices, physician practices, and large health systems across more than 47 medical specialties. Its flagship product, **ImagineOne®**, is an all-in-one, intelligent platform designed to streamline the entire revenue cycle from pre-service to zero balance.

Key Capabilities & Value Proposition

AI-Powered Automation: The platform integrates **ImagineCo-Pilot®** AI to enable 95%+ hands-free RCM workflows, including denial management, claim correction, and patient communication, leading to a reported 400% productivity gain and a 75% reduction in labor effort.

Comprehensive RCM: It automates critical RCM touchpoints such as eligibility verification, claims scrubbing, payment posting, and denial management.

Advanced Analytics: **ImagineIntelligence™** and **ImaginePowerOperations™** provide integrated, role-based dashboards that unify data from APIs, flat files, and cloud/on-prem systems, offering real-time insights, AI-powered forecasting, and automated MIPS compliance.

Patient Experience: The system supports clear, real-time financial estimates, automates prior authorizations, and provides a secure, intuitive patient payment portal for better collections and patient engagement.

ImagineSoftware is built for high-volume, complex medical billing and is known for its scalability and interoperability, seamlessly connecting with EHRs, RIS platforms, and other third-party tools.

Key Features

- AI-Powered RCM Automation (ImagineCo-Pilot®)
- Claims Scrubbing and Submission
- Denial Management
- Patient Eligibility & Estimation
- Patient Payment Portal

- Practice Analytics (ImagineIntelligence™)
- MIPS Compliance Integration
- EHR/RIS Interoperability

Pricing

Model: enterprise
