Overview

The Inovalon ONE® Platform is an integrated, cloud-based platform of nearly 100 individual proprietary technology toolsets and deep data assets, designed to empower data-driven healthcare initiatives on a massive scale. It is a SaaS platform that powers over 100 cloud-based solutions across the healthcare ecosystem, serving over 50,000 active, licensed customers, including 15 of the top 15 U.S. health plans and all top 25 U.S. provider systems.

At its core, the platform brings together national-scale connectivity, real-time primary source data access (via the proprietary MORE2 Registry® with over 93 billion medical events and 416 million unique lives), and advanced analytics, including AI and Machine Learning capabilities. This combination delivers actionable insights that inform and accelerate patient care and business decisions.

Key Capabilities & Target Users:

Payers: Improve member care, outcomes, and operational performance with sophisticated analytics and dynamic business intelligence for quality measurement and risk score accuracy.

Providers: Optimize revenue cycle management, care quality management, and workforce management through a single sign-on portal.

Pharmacies: Streamline operations, improve medication adherence, and enhance clinical performance with automated processing and real-time data exchange.

Life Sciences: Enhance the product life cycle and commercial strategy with diverse, longitudinally linkable real-world data and advanced analytics.

The platform's modular, configurable design enables rapid operationalization of large-scale initiatives, from value-based care programs to clinical trials and revenue cycle optimization.

Key Features

- National-scale Healthcare Connectivity (EHR/HIE)
- MORE2 Registry Data Access (416M+ unique lives)
- Advanced Analytics, AI, and Machine Learning
- Revenue Cycle Management (RCM)
- Care Quality Measurement & Star Ratings Optimization
- Risk Score Accuracy and Predictive Modeling
- FHIR-based Patient Access API
- Single Sign-On (SSO) Application Portal

Pricing

Model: enterprise

Custom plan, quotation-based. Pricing is tailored to the specific modules, scale, and scope of the enterprise-level healthcare organization's deployment. No free trial or free tier is available.

Target Company Size: medium, enterprise

Integrations

EHRs (Electronic Health Records), HIEs (Health Information Exchanges), Inovalon Data Cloud, Inovalon Payer Cloud, Inovalon Provider Cloud, Inovalon Pharmacy Cloud

Compliance & Certifications

HIPAA, SOC1 Type 2, SOC2 Type 2, HITRUST, PCI DSS, 21st Century Cures Act (Interoperability Rule)
