MicroMD PM

A comprehensive, scalable medical practice management system for scheduling, medical billing, claims, and revenue cycle automation.

https://www.micromd.com

Overview

MicroMD PM is a powerful, full-featured medical practice management (PM) software system utilized by thousands of medical and surgical practitioners, including specialty practices, multi-specialty groups, billing services, and Community Health Centers (CHCs).

It is available as a Client Server (on-premise) or Web-based (cloud/SaaS) option, offering flexibility for practices of all sizes. The system is designed to automate billing processes and revenue cycle management (RCM) with a comprehensive suite of tools.

Key Features and Capabilities:

Patient Scheduling and Management: Intuitive scheduling, template-based displays, color-coded views, and an intelligent patient waiting list. The Secure Chart Patient Portal allows for online patient scheduling.

Automated Billing and Claims: Streamlines billing operations, including fast patient registration, robust billing features, and fully integrated claims submission and management through preferred clearinghouse partners. It is noted for its high score in Billing Automation.

Financial Management: Includes accounts receivable management, collections tools, and comprehensive management, financial, and administrative reporting to monitor key performance indicators.

Eligibility Verification: Features automatic patient insurance eligibility verification to track effective dates and remaining deductibles.

Mobile Access: MicroMD Mobile allows users to access patient information from virtually anywhere using a tablet PC or handheld device.

Interoperability: Built on an open-architecture design, the MicroMD PM database is ODBC-compliant, allowing it to easily interface with a wide range of third-party services like clearinghouses, laboratories,

and Microsoft Office applications.

MicroMD PM is praised for its ease of setup and strong compliance features for RCM, making it an adaptable and reliable choice for independent practices aiming to boost efficiency and financial performance.

Key Features
