MIM Software

Vendor-neutral medical imaging software for radiation oncology, nuclear medicine, and radiology, featuring AI-powered workflows.

https://example.com/1762583716452

Overview

MIM Software, a GE HealthCare Company, provides innovative, vendor-neutral software solutions for multi-modality image review, fusion, storage, and processing across **Radiation Oncology, Nuclear Medicine, Radiology, Interventional Radiology, and Molecular, Neuro, and Cardiac Imaging**. Key products like MIM Maestro and MIM Encore offer advanced visualization, post-processing, reporting, and workflow automation. The platform focuses on precision care by leveraging **AI for tasks like zero-click auto-contouring (Contour ProtégéAI+) and automated tumor burden quantitation (LesionID Pro)**. It is used by **3,300+ global healthcare organizations** including hospitals, cancer and imaging centers, research institutions, and pharmaceutical organizations to standardize clinical workflows, improve efficiency, and enhance diagnostic confidence in increasingly complex clinical scenarios. The software, which began in 2003 as "Medical Image Merge" for DICOM image fusion, is designed to support the entire patient care pathway, from pre-planning to adaptive therapy. Solutions are available for desktop, mobile (iOS), and cloud deployment, offering remote access and secure data sharing via MIMcloud and Mobile MIM.

Key Features

- Vendor-Neutral Imaging Platform
- Multi-Modality Image Registration/Fusion
- AI-Powered Auto-Contouring (Contour ProtégéAI+)
- Automated Dosimetry (MIM SurePlan MRT)
- PET/SPECT Image Processing (MIM Encore)
- Workflow Automation (MIM Assistant)
- Mobile Diagnostic Viewing (Mobile MIM)
- DICOM, HL7, FHIR Conformance

Pricing

Model: enterprise

Subscription-based enterprise licensing. Pricing is not publicly disclosed; contact the vendor for a quote based on deployment needs (e.g., thick/thin clients, cloud services).

Target Company Size: medium, enterprise

Integrations

DICOM, HL7, FHIR, LDAP/Active Directory, PACS, Varian, Elekta, Sonablate HIFU, Sirtex INSYTE, BK Medical bkFusion

Compliance & Certifications

HIPAA, SOC2
