Net Health Optima

Cloud-based EHR and practice management solution for post-acute and senior living rehabilitation therapy, streamlining documentation, billing, and patient care.

https://www.nethealth.com

Overview

Net Health Optima (formerly Optima Healthcare Solutions) is a comprehensive, cloud-based Electronic Health Record (EHR) and practice management solution specifically tailored for post-acute rehabilitation settings, including Skilled Nursing Facilities (SNFs), Assisted Living Facilities (ALFs), and Continuing Care Retirement Communities (CCRCs). It is designed to streamline operational, clinical, and billing workflows to allow therapists to focus on patient care and outcomes.

Key Benefits & Capabilities The software helps providers navigate the demands of value-based care by offering tools to customize and automatically apply specific payer requirements, improve coding accuracy, and optimize reimbursement. The system's point-of-care solution allows documentation to continue even without an internet connection, enhancing therapist productivity and preparedness.

Main Features Key features include automated billing and claims management, referral tracking, patient analytics, real-time reporting, and guided documentation workflows. It also features an Outcomes-Driven Recommendation Engine, electronic physician signature capture, and patient engagement tools like Alinea Family Link. Net Health also offers a Certified FHIR API for interoperability and data exchange.

Key Features

- Automated Billing & Claims Management

- Guided Clinical Documentation (EHR/EMR)

- Practice Management & Scheduling

- Outcomes-Driven Recommendation Engine

- Real-time Reporting & Analytics

- Integrated Telehealth Capabilities

- Electronic Physician Signature Capture
