Netsmart myEvolvAM

An ONC-certified, web-based Electronic Health Record (EHR) system with comprehensive clinical, financial, and operational features for behavioral health and human services organizations.

https://www.ntst.com

Overview

Netsmart myEvolv is a fully web-based, ONC-certified Electronic Health Record (EHR) system designed specifically for organizations in the behavioral health, addiction treatment, intellectual and developmental disabilities (IDD), autism, and child and family services communities. It is a comprehensive platform that integrates clinical, financial, and operational features to facilitate whole-person care and support value-based models.

Key Features and Capabilities

Clinical Documentation: Supports real-time access to individual records from the office or the field, enabling detailed patient records, progress notes, treatment planning, and electronic signatures. It supports documentation for evidence-based programs.

Revenue Cycle Management (RCM) & Billing: Offers streamlined billing and claims processing, including support for multiple payer rules like Medicare and Medicaid, and efficient management of referrals and scheduling.

Interoperability: Facilitates data exchange via the Netsmart CareConnect™ integration engine and certified HL7 FHIR R4 endpoints, ensuring seamless and secure integration of information across communities and with other providers.

Medication Management: Includes electronic medication administration record (eMAR) and e-prescribing capabilities.

Mobile Access: The CarePOV™myEvolv® Anywhere mobile application supports community-based direct service providers for managing appointments and documenting services in both connected and disconnected environments.

Compliance & Reporting: ONC-Health IT 2015 Edition Certified, generating reports to track clinical outcomes and performance metrics.

Target Market

myEvolv is best suited for mid-market and larger behavioral health organizations, including Community Mental Health Centers (CMHCs), Federally Qualified Health Centers (FQHCs), Certified Community Behavioral Health Clinics (CCBHCs), and inpatient/residential programs.
