---

## Overview

---

OmniMD is a comprehensive healthcare technology company that provides an integrated, AI-enabled digital health platform including Electronic Health Records (EHR), Practice Management Systems (PMS), and Revenue Cycle Management (RCM) solutions. Founded in 2000, the platform is designed to streamline clinical and administrative workflows for medical practices, clinics, and hospitals, serving over 12,000+ medical professionals across 20+ specialties globally.

**Key Features and Capabilities:** The software leverages advanced cloud architectures and AI to offer a single, intelligent system for managing the entire practice lifecycle. Core offerings include:

**AI-Powered EHR:** ONC-certified EHR with specialty-specific templates, real-time AI charting, and e-prescribing with drug interaction alerts.

**AI Tools:** Includes an **AI Medical Scribe** (ambient listening for real-time documentation), **AI Front Desk** (HIPAA-compliant conversational AI for scheduling and intake), and **AI Clinician** (clinical decision support).

**Revenue Cycle Management (RCM):** Focuses on maximizing claim success with automated claim scrubbing, intelligent coding verification, and predictive denial management to achieve high first-pass clean claim rates.

**Digital Health:** Features an interoperable **Patient Portal** (for scheduling, records access, and secure messaging) and integrated **Telemedicine** and **Remote Patient Monitoring (RPM)** capabilities.

**Interoperability:** The OmniXchange platform supports seamless data exchange using standards like FHIR, HL7, JSON, and XML, and integrates with major labs and other EHR systems.

**Target Users and Use Cases:** OmniMD is suitable for solo practitioners, small to mid-sized practices, multi-specialty groups, and hospitals. Primary use cases include clinical documentation, medical billing optimization, patient engagement, and regulatory compliance across specialties such as Cardiology, Orthopedics, Mental Health, and Urgent Care.

## Key Features

---

- AI Medical Scribe (Ambient Documentation)

- Electronic Health Records (EHR)
- Revenue Cycle Management (RCM)
- Practice Management System (PMS)
- Telemedicine & Remote Patient Monitoring (RPM)
- Patient Portal & Kiosk
- E-Prescribing (SureScripts Certified)
- FHIR & HL7 Interoperability

## Pricing

---

**Model:** subscription

Subscription-based with custom pricing. Reported starting prices vary, with some sources indicating approximately \$50 per user per month for small clinics, and others starting at \$250.00 per month per user. A free EHR is offered to practices that subscribe to their billing services. Implementation costs are separate.

**Starting at:** USD \$50

**Target Company Size:** small, medium, enterprise

## Integrations

---

Labcorp, Quest Diagnostics, eClinicalWorks, Epic, AdvancedMD, athenahealth, Kareo EHR, LIS, RIS

## Compliance & Certifications

---

HIPAA, HITECH, EHNAC Accreditation, ONC-ATCB Certified, GDPR, CCPA, NIST SP 800-53
