

# SPRY Dysphagia Tools

AI-powered EMR and RCM platform for Speech-Language Pathologists, featuring specialized tools for compliant dysphagia documentation, billing, and patient management.

<https://www.sprypt.com>

---

## Overview

---

SPRY Dysphagia Tools are the specialized components within the all-in-one SPRY AI EMR and RCM platform, designed to meet the unique clinical and administrative needs of Speech-Language Pathologists (SLPs), particularly those managing dysphagia. The platform unifies clinical documentation, revenue cycle management (RCM), scheduling, and analytics into a single, cloud-based system.

**Key Benefits for SLPs:** The system features **SOAP note workflow customization** for specialties like speech, allowing for efficient and compliant documentation. The core **AI Scribe** feature is a generative AI tool that listens to patient-therapist conversations and instantly creates structured, compliant SOAP notes and CPT tags, reducing charting time by up to 70% and allowing clinicians to finish daily notes in about two minutes. For dysphagia management, the tools facilitate the tracking of specialized outcomes and can be customized to incorporate common assessment tools and Patient-Reported Outcome Measures (PROMs).

**RCM and Billing:** SPRY automates the entire billing cycle, including real-time eligibility verification, pre-authorization, advanced claim scrubbing, and Medicare compliance, leading to faster reimbursements and a reported 98% claim approval rate. The platform also includes a conversational **Scheduling Agent** to manage cancellations and fill schedules autonomously.

**Target Users and Use Cases:** The platform is suitable for **small to enterprise-sized** outpatient rehabilitation clinics, including Speech Therapy practices. Primary use cases are EMR/Clinical Documentation, Revenue Cycle Management, Patient Intake/Scheduling, and Business Intelligence/Analytics.

## Key Features

---

- AI Scribe (Speech-to-SOAP Documentation)
- Specialty-Specific SOAP Note Customization (including Speech/Dysphagia)
- Integrated Revenue Cycle Management (RCM)
- Real-Time Insurance Eligibility & Pre-Authorization
- Automated Claim Scrubbing & Medicare Compliance
- Digital Patient Intake Forms & Kiosk Check-in
- Home Exercise Program (HEP) Integration
- Real-Time Business Intelligence Dashboard

## Pricing

---

**Model:** subscription

Starting at \$150/month per provider for the EMR module. SPRY 360 (EMR + RCM) is \$150/month per provider plus 4% to 6% of collections. Pricing is based on the number of visits per full-time provider. Custom quotes are available.

**Starting at:** USD \$150

**Target Company Size:** small, medium, enterprise

## Integrations

---

Wibbi (HEP), Claim.MD (Clearinghouse), Square (Payment), Stripe (Payment), Clover (Payment), FORTIS (Payment)

## Compliance & Certifications

---

HIPAA, Medicare Compliance
