

StreamlineMD

Cloud-based EHR, Practice Management, and Revenue Cycle Management software specialized for Radiology and Interventional Specialists.

<https://example.com/1762583716455>

Overview

StreamlineMD offers a comprehensive, cloud-based platform integrating Electronic Health Records (EHR), Practice Management (PM), and Revenue Cycle Management (RCM) services. It is specifically tailored to meet the unique workflow and business needs of Radiology and Interventional Specialists, including those in Office-Based Labs (OBLs), Ambulatory Surgery Centers (ASCs), and Clinics.

Key features are designed for image-guided procedure specialists, including specialty-specific procedure documentation, a Teleradiology Experience, a Prior Authorization Tracker, Patient Tracking, and Inventory Management. The platform is ONC-Certified and compliant with the 2015 Edition Modular EHR criteria, supporting compliance through features like Meaningful Use certification and compliance tracking.

As a wholly-owned subsidiary of PRC Medical, LLC, StreamlineMD emphasizes stability, client intimacy, and adaptability, with a mission to help doctors prosper and improve healthcare. The software supports customizable templates, e-prescribing, patient scheduling, and a patient portal to enhance communication and operational efficiency.
