

TheraPlatform Pediatric

All-in-one HIPAA-compliant EHR, practice management, and teletherapy platform with interactive apps and games, specifically designed for pediatric and allied health therapists.

<https://www.theraplatform.com>

Overview

TheraPlatform is a comprehensive, all-in-one software solution combining Electronic Health Record (EHR)/Electronic Medical Record (EMR), practice management, and a HIPAA-compliant teletherapy platform. It is specifically designed for therapists and allied health providers, including mental health, Speech-Language Pathologists (SLP), Occupational Therapists (OT), Physical Therapists (PT), and Dietitians, with a strong focus on engaging pediatric clients.

Key Features and Capabilities

Pediatric-Focused Teletherapy: Features a secure, HIPAA-compliant video conferencing module with unique, built-in tools like an interactive whiteboard, two-way screen sharing, and a library of over 40 interactive therapy apps and games (available on Pro Plus plan) to make virtual sessions more engaging for children.

Practice Management: Includes a robust calendar, online appointment booking, automated email/text reminders, and a booking widget for your website.

EHR/Documentation: Offers flexible and customizable note templates (including SOAP notes), treatment plans, progress tracking, secure e-faxing, and paperless intake with electronic signatures. An optional AI feature is available to assist with note generation and summarization.

Billing & Invoicing: Provides a full billing suite with automated invoicing, payment tracking, online payment processing (via Stripe), insurance claims management, superbill generation, and automated EOB/ERA posting.

Client Portal: A secure, branded portal for clients to manage appointments, complete and e-sign intake forms, make secure payments, and access shared resources/homework.

TheraPlatform is a web-based, scalable solution supporting solo practitioners to small and medium-sized group practices, allowing them to go 100% paperless and serve remote clients efficiently.
