TheraPlatform

All-in-one practice management, EHR/EMR, and HIPAA-compliant teletherapy platform for mental health, speech, occupational, and physical therapists.

https://www.theraplatform.com

Overview

TheraPlatform is a comprehensive, all-in-one practice management software, Electronic Health Record (EHR)/Electronic Medical Record (EMR), and teletherapy solution designed specifically for therapists and allied health providers, including mental health, speech-language pathologists (SLP), occupational therapists (OT), physical therapists (PT), and dietitians. The platform is web-based and fully HIPAA-compliant, allowing practices to go 100% paperless.

Key Capabilities and Benefits:

Telehealth: Features a secure, HIPAA-compliant video conferencing module with unique, built-in tools like an interactive whiteboard, two-way screen sharing, resource library, and over 40 interactive therapy apps and games, making virtual sessions more engaging, particularly for pediatric clients.

Practice Management & Scheduling: Includes a robust calendar with color-coding, online appointment booking, a booking widget for your website, and automated email/text reminders. The platform is scalable, supporting solo practitioners to small and medium-sized group practices with no extra fees for administrative staff (billers, schedulers).

Documentation & EHR: Offers flexible and customizable note templates (including SOAP notes), treatment plans, progress tracking, and secure e-faxing. It includes a library of forms and supports paperless intake with electronic signatures. An optional AI feature is available to assist with note generation and summarization.

Billing & Invoicing: Provides a full billing suite including automated invoicing, payment tracking, and online payment processing (via Stripe integration). It supports insurance claims management, superbill generation, claim submission, and automated EOB/ERA posting.

Client Portal: A secure, branded client portal allows clients to manage appointments, complete and e-sign intake forms, make secure payments, and access shared resources and homework assignments.

TheraPlatform is highly regarded for its strong value-for-money, user-friendly interface, and exceptional customer support, making it a popular choice for private practices seeking a consolidated, affordable, and feature-rich system. The platform is continuously updated with new features based on user feedback.
