

# WebPT

Comprehensive cloud-based software for physical, occupational, and speech-language therapy practices, offering EMR, practice management, and RCM.

<https://www.webpt.com>

---

## Overview

---

WebPT is the leading Practice Experience Management (PXM) platform designed specifically for physical therapists (PTs), occupational therapists (OTs), and speech-language pathologists (SLPs). The cloud-based solution unifies marketing, front office, clinical, billing, and administrative tools on one platform to help practices grow, streamline operations, and ensure compliance.

### Key Benefits and Capabilities:

**AI-Powered Documentation:** The WebPT EMR is purpose-built for rehab therapy, featuring AI-powered workflows and customizable templates that simplify documentation, accelerate note-taking, and ensure compliance with regulations like Medicare's 8-minute rule and NCCI edits. [cite: 22, 4, from first search]

**Revenue Cycle Management (RCM):** The platform offers integrated billing solutions, including a clearinghouse partnership with Waystar, electronic benefits verification (EBV), and integrated payments (Worldpay) to reduce denials, accelerate reimbursement, and simplify collections.

**Practice Management:** Features include integrated scheduling, patient intake, and patient portal tools to optimize the front office, reduce no-shows, and eliminate manual data entry.

**Compliance and Security:** WebPT is HIPAA-compliant, willing to sign a BAA, and holds SOC 2 and ISO 27001 certifications. It includes security features like multi-factor authentication (MFA) and encryption. [cite: 4, 7, 1, from first search]

**Interoperability:** The platform is committed to healthcare interoperability, integrating with over 60 industry-leading vendors for seamless data exchange. [cite: 4, from first search, 7, from first search]  
WebPT was founded in 2008 and serves over 150,000 rehab therapy professionals with a focus on high uptime reliability. [cite: 13, 9, from first search]

## Key Features

---
